
In advance of your initial INDIVIDUAL Adult INTAKE APPT follow these steps. Scroll down to print and complete the forms you need. Plan for 45 minutes or more to complete it all. This will benefit you by saving our time for discussion and is intended to be more convenient for you.

If you are being seen remotely, I need everything returned to me by noon, two business days before our appt. Otherwise, the appt may have to be postponed.

If being seen in my office, you can bring it all with you when you come. If you haven't done all your paperwork in advance, you will need to complete yours during your appointment time and this will limit our discussion time.

All of the information is important; either to me or required by law or ethical codes to be provided to you. I do apologize for the quantity. I will be reviewing all of it. The information provides me a basis to begin to understand your upbringing, background & the foundations for your personal values, which you may have brought to your current relationships or issues.

Also, during our appointment time, I will personally ask you some of my Individual Assessment questions. These will pertain to the nature of your concerns, and your communication and problem solving styles. Be watching for me to separately send the Payment & Rate Agreement and if needed, Release of Information consent form/s.

CONFIDENTIALITY: How it Works and INFORMED CONSENT

Name: _____

Your expectations of confidentiality are a critical part of how Counseling can be helpful. Therefore, it is important for you to fully understand what level of privacy to expect and also what the legal limitations are.

In AL, from the age of 14 and up you are entitled to access medical/mental health treatment at your will and without the notification or consent of any parent, guardian or custodian. At age 14 & up, it is your choice to Request or Consent to Release any Information about your treatment. You can limit what is released and you can revoke your consent at any time. For multiple participants, ie Family or Couple's Counseling, all participants must be in agreement or I can only release a summary that is specific to the requestor only! Any communications must be available to all participants; this means I will not be the keeper of secrets. For Couples, be aware, AL does have some legal restriction of your use of a LMFT's testimony in an Alimony or Divorce action.

Your privacy is important to me. I will refer to you by your first name. I will not acknowledge you in public unless you initiate this. The outer office remains locked. My office door is locked and your files are kept in my locked cabinet. If I must transport files they will be in a locked briefcase and locked car. After services are ended, your files are kept locked for 7 years (adults) and 10 years for kids. Technology I use, like my computer and work cell phone are password protected. My computer is encrypted. Even so, privacy cannot be guaranteed. No audio or video recording devices will be allowed or used at any time, by any participant, unless there has been written permission by all participants, in advance. If you see any potential for privacy leaks please make me aware so I can do my best to resolve these immediately.

If your treatment causes me to seek professional consultation, I will use every precaution so as to not give any identifying information. If I am incapacitated my confidential Records' Custodian and Emergency Clinical Coordinator designee is Angel Jernigan, LPC 205-538-4710. Be sure to have this information for your future reference.

It is critical that you understand the circumstances in which, BY LAW, I AM REQUIRED TO REPORT limited information that you disclose to me.

1. If there is **suspicion of ABUSE** of vulnerable persons such as children, the elderly (60yo +), the disabled... I must notify The Department of Human Resources (DHR) or the Police.
2. If you are in clear danger & imminent risk of committing **SUICIDE** or seriously harming yourself.
3. If you are in clear danger & imminent risk of **seriously harming or KILLING** another person. I have a **DUTY TO WARN**. For both #2 and #3 the Police and/or Emergency Medical Services (EMS) would be notified, unless you agree to have your designee transport you **immediately & voluntarily to the Hospital for Psychiatric** assessment. If you have a **communicable DISEASE** that can be fatal, and you intend to put a person at this risk, I have a duty to report it to the local Health Authorities & to warn the person at risk of harm. AL Health Depts. have an anonymous partner notification program.
4. **I must provide the records or testimony ordered, if a Judge orders me, or in situations like:** client mental health hospitalizations, court ordered assessments, any civil, criminal, or disciplinary DEFENSE of ME that involves your mental or emotional condition, or if a victim of sexual assault or family violence died, I may have no choice. Clients being treated with Substance Abuse disorders have special protections of those records, EXCEPT if they commit a crime on the premises (and it is a federally funded program like TASK or Beacon Addiction Ctr.)

Use of Technology for Counseling
like Video-conferencing or Cell phone, Email, or Text

If you are a new client, using technology for our session/s, **please be sure all the documents requested, have been completed and sent to me so I have them IN ADVANCE OF our first session.**

All clients: Please read all the information below. Use this to make your preparations to be ready for your session via technology. **At our appt time watch for contact from me.**

_____ For **Video-Conferencing**. I am glad you are able and/or willing to use my **confidential, simple to use, software “Doxy.Me”** for our appt which I use in a **HIPAA compliant** way.

Watch for an email from me, in it will have the link to click on. **Scroll down to see the diagram below, note step two. It is that easy.** You might need to turn on your video screen and/or microphone.

_____ For **Cell Phone** use: I will call you at the agreed #.

_____ For **Email**: watch for an email from me at our appt time.

_____ For **text**: Watch for a text from me at our appt time.

_____ For other: _____

If we run into any tech problems, like it keeps crashing... because the internet is overloaded.... our **backup plan** will be to use the phone. Use your discretion, as to how much you want to trust any technology, for your privacy. Keep in mind, all forms of technology have their risks, because of hackers and voyeurs. I’m using the best tools I know, in the most protective ways, **but I**

cannot guarantee your privacy. We each have a responsibility to minimize any risks, if possible.

Most of you have already **prepaid \$\$\$\$ for your appt.** Thank you. No further action is required. For those who were due to pay in office, please send my payment to my email via PayPal or Venmo (RPhillips@BirminghamCounselor.com) or mail me a check (PO Box 26387 Bham AL 35260). If you intend to file with your Insurance, knowing I am NOT In-Network, please also know that Counseling via distance/technology may not be covered at all.

In order to see and hear and get as much out of the session as you could in person, please ensure you are set up in a **private, quiet, comfortable spot** to sit for the 50 or 80 minute session. If you have earbuds/phones use them. For video, sit where you/all can see the screen straight on and it can be stationary. Be sure **light is in front of you** and not behind you glaring, and the site line behind you is free from visual distractions.

Before we start, I will need to see your photo identification to **verify your identity, to verify your location, if you have privacy, and if you are ready to begin.** During our session I may refer to your file and I will **take notes, documenting our technology based session and our locations,** and retain the information securely. You can request to update your information at any time. If we need to pause, for privacy, state the code word “groceries”.

I must have an emergency contact # for each location of any video session, at all times.

#2. Current work address: _____

If **an emergency** occurs during our session, for immediate purposes, use the Doxy.Me text tool or you can call or text me on my cell phone 205-356-9834. Less prompt, but an option, is to leave a cell phone voice message or email me.

If I observe signs of potentially life threatening distress, significant out of character behavior/symptoms of a more severe condition, or you confirm an immediate need, I will contact your pre-designated emergency contact for your location. If I don't know where you are, 911 won't find you either. So, **yes, I really must have this info:**

Non 911 emergency #'s (like County Sheriff or Municipal Police):

Because technology will limit our use of visual & auditory cues, there is greater **chance for misunderstandings**. Please check and verify before concluding and reacting. Please share with me, informally, at any time, or on my evaluation form, any feedback or suggestions you may have.

We may **cease to use technology based tools for your counseling appt if:** connection or quality problems can't be resolved, if you don't like it, if your privacy can't be secured, if I am not able to retrieve information I need or to be effective communicating with you. Differences in aptitude for technology can affect comfort and even roles. Speech, language, auditory, visual, or attention problems can all be a barrier to progress via technology. Either of us may choose to cease its' use, for any reason. Once the circumstances for use of technology is over, we will resume face to face, in office sessions with me; elsewhere if referral is needed.

Our use of technology is only for our professional use, to provide accessible mental health services. **I do not use social media nor my personal accounts with clients** (like Facebook, LinkedIn, Twitter, Skype....). These are tools that others can possibly view or participate in. This is for YOUR privacy and protection.

A strong, reliable internet connection is integral to an effective technology based mental health session, especially using video. If you're able to use a wired connection, this will provide you with the best possible experience through your internet provider.

If you're not able to use a wired connection, you can still use a wireless network for your online sessions. However, you'll want to be sure that you're using Wi-Fi with a bandwidth (speed) of at least 10 MBPS on download and upload. If your bandwidth is any slower, your video will lag and cut out causing a negative experience for both you and your clients. To check your internet speed, type "speed test" into a Google search and click this button:

This will run short tests for both your download and upload speeds, which will take about 30 seconds overall. When complete, you'll be shown your results:

If either of your tests returns a speed lower than 10 Mbps, contact your Internet Service Provider (ISP) to ask about available options to improve your connection. This will likely require upgrading your service to a higher-level package but may be worth it in the long run.
